

The Quest Solution for DOS to CE Conversion

with **VIA** "C" Port

VITAL INFORMATION ANYWHERE

Empower Your Workforce

Make a smooth transition to the future of mobile computing with VIA "C" Port Service from Quest Solution.

We take the stress and expense out of DOS to CE conversion.

We understand that many times the investment to convert DOS to CE is too significant to justify a change to a new platform when you consider the handheld software, the communication to and from the host system, and the re-training of end users.

We also understand the many advantages of the new mobile computers:

- Increased worker productivity
- Fewer errors
- Faster everything – including ROI

Conversion Service Advantages

- Easy and affordable
- Maintain your traditional data collection apps.
- Benefit from more powerful and faster new devices
- Minimize re-training
- Plan for your future at your own pace
- Little or no interruption to your current operations
- Port what is working
- Create additional applications when you need them

All at a cost of 50% to 90% less than traditional mobile computer programming!

Old Hand Helds

- Green screen
- Text only
- 2-16 line display
- 8 bit processor
- 8K-128K memory
- No longer made
- Slow modem
- Bar code wand
- Moving laser

New Mobile Computer

- Touch color displays
- Full graphics
- VGA and better
- 32 bit processing
- MB and more
- Available now
- Fast modem and cell
- Imager or laser
- Solid state or imager

Benefits of Change

- Easier to read and navigate
- Intuitive and faster use, less training
- More information, easier to use
- Faster everything
- More room for data storage
- Lower cost of ownership
- Less labor, more productivity
- Less labor, more reliable, faster
- Higher reliability, more versatile

Quest Solution

Quest Solution is a leading provider of handheld and wireless solutions, extending current IT infrastructure and applications to the mobile workforce. Customers in distribution, manufacturing, logistics and retail use Quest Solution to improve profits, increase efficiencies and manage inventories. Leading companies rely on Quest Solution to get more out of their existing information systems affordably and on time. For more information contact Quest Solution today.

Service and Support Available

- Technical support
- Installation and setup
- Maintenance
- Application support
- Hardware support
- Migration from your current design

A Conversion Success Story:

A major greeting card company says hello to saving time and money

The company's program was originally written by a group of 12 programmers working for 4 years to complete their highly customized mobile warehouse management system. The estimate to convert the Telxon 860 to WinCE was over 4,000 man hours. Quest Solution accomplished the conversion in 80% less time than estimated while developing a toolkit at the same time. It is estimated that a similar project could be done in 90% less time than re-writing the application.

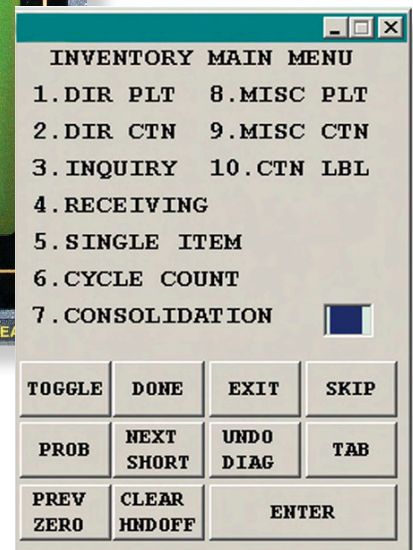

Any company with large installations of older DOS handheld computers can use VIA "C" Port services* to migrate from:

- Intermec
- Norand
- Symbol
- Telxon

* VIA "C" Port services require the original C source code with no third party libraries.
